Domiciliary Support by Gaudium

Assured Care is the domiciliary branch of Gaudium Ltd.

Gaudium Ltd. was established in 2012, and is owned by Mariusz Waluk, and our registered managers are Mariusz Waluk and Amanda Nelson. Our service covers Penrith and the surrounding Eden Area providing support services for vulnerable adults, suffering from a variety of degenerative illnesses, and their carers and our promise is to ensure each one of our clients are treated with care, compassion and dignity.

We aim to bridge the gap between surviving alone and living in a care home, this way our clients can continue to live in their own homes and continue to enjoy their own lives for as long as possible independently.

Our values are honesty, safety, reliability and trust. We pride ourselves on putting '*care before business*', and as a small but expanding company our clients still get the personal touch from every one of our compassionate, friendly staff.

Between the hours of **7am to 11pm**, our friendly support workers provide a range of services in the Penrith and surrounding Eden area, with our flexible packages tailored to each individual. Our registered domiciliary care provides all the support and care required to assist your loved one to remain in their own homes for as long as possible.

Whether you require an occasional visit for a chat and some company, or multiple daily visits, and assistance with practical tasks, we can be there to provide help and support.

Most people can live independently in their own homes. However, when they are frail or have long term care needs, this can be difficult without the help and support of other people and services. This service which assists with personal care and other practical household tasks is called Domiciliary Care.

The service is tailor-made to suit the needs of both the client and primary carer. We are able to provide full personal care, including assistance with continence management, bathing and dressing, and assistance with meals and shopping.

We provide the highest standards of care with skilled, qualified and dedicated staff, and clients are treated with dignity and respect at all times.

Below are some of the tasks we assist with:
